

# EMDR Psychotherapist

## Policy & Procedures

### Qualifications

Must hold a Master's degree in a relevant human service, mental health discipline or nursing, PhD in psychology or as a psychiatrist. Must be licensed in the State of Hawaii to practice. Must be credentialed in Hawaii Quest insurances and Private Plans. Must have been trained in EMDR Level One and Two and in advanced training in treating complex trauma. The Therapist should have another specialty or be scheduled in EMDR trainings in one other specialty area. Areas of developmental trauma, addiction and management of anxiety are specialties of interest for SRG/GWC.

### Job Description

The therapist will work with children, adults, families and groups providing EMDR psychotherapy and a full range of social work intervention. The therapist is responsible for all scheduling and management of all accountability systems using Empathic Clinical Suite Clinic Practice Management software system that includes management of issues such as documentation, billing etc. A sample of documentation requirements is attached . The therapist will participate in weekly supervision and peer review of their practice. As the therapist is working in a Non-for Profit it is expected that work will often go "above and beyond the call of duty". A charitable attitude is very much encouraged. The therapist is also encouraged to stay relevant and up to date on their own "self care". Therapist needs to have 21st-century technology skills and be comfortable working either online or face-to-face as needed.
